

MATTHEW MITCHELL

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in solving complex problems. Proven track record of creating and implementing successful front and back-end web applications with extensive experience in team supervision for a multinational corporation. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100Devs | Los Angeles, CA

January 2022 — Present

- Built semantically structured full stack web applications.
- Collaborated with a team of developers to build modern and responsive web applications using HTML/CSS/JavaScript/Node.js/Express/MongoDB.

Recent Projects:

- **Note App** - Full Stack web app that saves notes using MongoDB.
- **API Database** - Website to search for free APIs for projects and research.
- **Personal Resume** - Freelance client to build resume website.

Team Lead at Spin | Fort Collins, CO

July 2021 — Present

- Lead a team of operation specialists and mechanics to meet daily and weekly goals for productivity and market operations.
- Resolved issues that occur daily in the different aspects of the position.
- Numerous streamlined procedures to increase efficiency.
- Having a proactive and team player mentality resulted in three promotions.

Warehouse and Logistics at Mondo | Austin, TX

October 2019 — March 2020

- Worked on a team to package and ship hundreds of packages of fine art every day.
- Coordinated with other departments and worked with the public at events.

Customer Service | Logistics at sirmitchell.com | Austin, TX

May 2015 — October 2019

- Responsible for shipping/receiving, customer service, and logistics of tens of thousands of orders for an eCommerce site.
- Learning time management and multitasking as a one-person team.
